FINE ART ALBUM GUIDE

FINE ART ALBUMS

These books are... beautiful.

Let me assure you, this is how you want your wedding to be remembered. There's a reason why stories have been told in books for so long, don't let your wedding end up in a folder on a hard drive somewhere.

Each album is 10" x 10", custom designed, hand bound, flush mounted and printed on fine art matte paper using archival inks. Covers can be cloth or leather (including vegan leather options) and come in a myriad of colours.

-
A parent album is a replica of your own album but a little smaller.

“IT’S LIKE HOLDING
A BEAUTIFUL BOOK
ABOUT LOVE,
FEATURING YOUR STORY.”

THE PROCESS

HOW DOES THE DESIGN PROCESS WORK?

Each album is custom designed especially for you by my in-house studio designer. After a collection of images to best tell the story of your day has been collated, my designer will provide you with an online proof. The online proof is where you can provide feedback such as images you may like swapped, taken out, additional images added etc. Once you have reached a design you love, and have chosen your cover, it is then finalised for print.

If you have already purchased a 30 spread album as part of your wedding package, you are still free to add any additional options at anytime throughout the design process, such as extra spreads, debossing, display cases or parent albums.

WHEN DO WE RECEIVE OUR ALBUM?

Once your design has been finalised, please allow six to eight weeks to receive your album. This allows time for final checks, ordering, the album being printed and shipped, and final quality checks being undertaken. It is worth the wait, we promise!

HOW DO WE RECEIVE OUR ALBUM?

Pick up in the Hobart area is preferred.
Postage is also available for those unable to collect or interstate/overseas.
